

**METHOD, APPARATUS AND PROGRAM STORAGE DEVICE FOR
PROVIDING A REMOTE POWER RESET AT A REMOTE SERVER
THROUGH A NETWORK CONNECTION**

5

ABSTRACT

A method, apparatus and program storage device for performing a remote power reset at a remote server through a network connection is disclosed. A power reset procedure is pinned to memory at a remote server. The remote server listens for a call specifying the power reset procedure pinned to memory. The call is received at the
10 predetermined port. The power reset procedure pinned in the memory of the remote server is initiated in response to the call.
